Shared Moments Bracelet™

Capture Life's Journeys, Dreams & Treasures

A collection of charms is a wonderful way to tell the story of the bond you share with that special someone. Made from solid sterling silver with 14K gold accents, the **Shared Moments Bracelet™** features twin rings that symbolize the circle of life between two partners, with a heart-shaped gallery along each ring's edge to allow for charm display. What makes our bracelet different is that we offer four separate areas to display the charms that are symbolic in the couple's life — tiny treasures that showcase the journeys of their past, present and future along with shared dreams or the successes of their time together as one.

Each **Shared Moments Bracelet™** comes with two gender symbol charms, selected at the time of purchase. This bracelet is also available in 14K Gold, with or without diamonds. Please call for pricing and availability information.
